Sleep

Everyone has the same number of hours to spend each day,
but there are so many things that we want to do. As a result,
we often stay up late and do not get enough sleep. However,
sleep is very important in many ways and we shouldn't
sacrifice it for other matters.

First, sleep affects our emotions. People who do not have
enough sleep

feel sad or get angry easily. They may lose interest in many
things. They

need to sleep more because sleep can improve their mood and
help them relax.

Sleep can help us focus better in our work and study. When we
sleep more, we become more alert to the things happening
around us. It can improve our memories too, since our brain
spends the time when we are sleeping to form memories.

Sleep can also help us lose weight because people who do not
have

enough sleep tend to eat more during the day.

'stay up late' means '_____'

- A. Going to bed very late at night
- B. Waking up at the wrong hour
- C. Not going to school on time
- D. Being lazy at night
